

STORESAFESC

Tenant Protection Policy for Boat, RV, and Vehicle Parking

Supplemental coverage for your Valuable assets

Standard vehicle insurance policies usually have high coverage limits—accompanied by high deductibles. StoreSafeSC offers a low-deductible protection plan that helps cover damage or loss to your vehicle while in storage. To qualify for a claim, the damage or loss must happen while the vehicle is stored on the facility's property.**

Covered

- Loss due to theft or burglary
- Exterior damage such as dents, scratches, scrapes, etc.

*Coverage applicable to OEM parts only. Causation from Owner negligence & interior damage excluded.

**Police report required. \$150 deductible applies to all claims.

Not Covered

- Items that are not OEM or permanently attached to the vehicle ie: propane tank, grill, generator, television, etc.
- Items that are stored inside the vehicle.
- Items stored in the parking space that are not permanently attached to the vehicle.
